

THE EXPOLINC COLLECTION 2016

High Performance Display Systems

This is Expolinc

Producing crap is the easiest thing in the world. That's why we refuse to do it. Saving a fistful of dollars in production costs always mean the same thing: compromises made in regards to materials, design and function. And we're not willing to make that sacrifice, since it risks shattering the brand you've spent time, energy and money to build, if it ends up on a wobbly image wall, a print that detaches itself at will, or a roll up that just will not stand straight. It would turn the projected savings into a loss - a costly illusion.

That's why we only make portable display systems that leads the way for our industry. And we do it at reasonable prices, without negotiating away anything needed for you to be able to meet potential customers in the very best of settings. That's the love we know your brand deserves.

LOVE
YOUR
BRAND | **Cut
the
crap!**

Width (mm)1060
Height (mm).....1020
Depth (mm).....395
Weight, system (kg).....10,5

Soft Image counter comes with side attachments for occasions when you wish to extend the image beyond the sides.

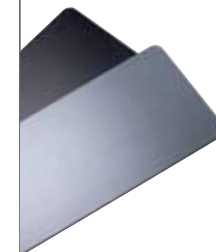

Watch the movie about Soft Image Counter at www.expolinc.com

Details

The graphic stays in the frame during transport.

Choose between top shelf in silver or in stone.

Internal shelf for storing your information material.

Standard package

The package contains a Soft Image frame for the counter, shelf unit, counter top and padded nylon bag.

Accessories

Suspension loops and end caps are available as accessories.

Standard package

Graphic Profile is delivered in package of 6 pcs 2000 mm profiles.

Length (mm) 2000
Max thickness (mm) 0,8

Graphic Profile Hang your message where you want – without fuss

Graphic Profile is an aluminum profile for hanging posters and banners up to 0,8 mm in thickness. The image is attached with a snap, without screws or glue. The symmetrical shape and centred image, lets the profile hang straight and it looks identical from either side. There is no spring mechanism which allows it to be easily cut to desired length or drill in for mounting on a wall.

- Easy to mount any material up to 0,8 mm
- Symmetrical design for exposure on both sides
- Can be cut to any desired length

4 Brochure Lightweight and sleek brochure stand

4 Brochure consists of brochure pockets on a transparent fabric. The stand rolls up easily and is transported in a practical and discreet bag. The system is built on the same principle as the 4 Screen display system, making it highly stable and user-friendly. It weighs only 1.7 kg.

Process control

We design and develop all our products ourselves and control the whole manufacturing process. We have our own modern warehouse and logistics system, providing you not only with products, but with spare parts and accessories - no matter where you are.

Quality and design with a lifetime warranty

To make sure that you are able to rely on our systems over and over again, we submit ourselves and our suppliers to rigorous quality control procedures. When developing products, our core objective is to achieve a carefully considered and functional design. We are so confident in the function and quality of our systems that we give a lifetime warranty on all our products.

How it works

Our display systems have been developed to be simple and straightforward to set up and use, without the need for a whole toolbox full of tools. Just to be sure though, every display system does come with easy-to-follow instructions. These can also be downloaded as a PDF from our website.

Dealers

Our products are distributed via a network of dealers in over 35 countries. We are only too happy to help you find the best solution based on your needs and wishes.
